

Rockwood Features:

Standard Features

Environmentally Friendly

Neufoam™ technologically advanced polyurethane insulating core keeps your garage warmer and quieter.

Tamper-Resistant Cable Attachment

Tamper-resistant cable attachment cannot be released under tension, helping to prevent accidental injury.

10 Ball Commercial Quality Nylon Rollers

Our rollers ensure years of smooth and quiet operation.

Patented Commercial Quality Linear Type Hinges

Patented commercial-grade linear-type hinges have the highest strength-to-weight ratio in the industry.

Dual Acting Between Section Joint Seals

Each section meeting joints incorporates a dual section seal, ensuring a tight fit while reducing air infiltration.

Superior Weather-Seal System

3" arctic-grade bottom weather seal helps protect your garage from the elements.

Galvanized Spring

High cycle galvanized torsion spring and shaft for years of trouble-free operation.

Optional Features:

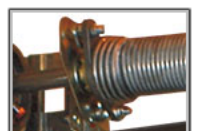

Continuous Angle

Continuous angle completely encloses the frame, plus the lifting cable always remains behind the guard.

Spring Break Protection

This safety device prevents the door from dropping more than 1' in event of counterbalance failure.

Perimeter Weather Seal

Arctic grade, low temperature, dual fin perimeter weather seal, with concealed fasteners.
